

March 11, 2021

Dear McLean Patients, Residents and Families,

We are sending an update today to let you know of one contracted employee on the Atwater who tested positive for COVID-19 as a result of our surveillance testing. They are currently isolating at home.

Contact tracing is currently underway; anyone who has been potentially exposed will be notified individually by our care team. Precautionary measures continue to be implemented to prevent the spread of the virus.

On the Atwater neighborhood, we have suspended small group activities, including dining, and inside visitation, except for compassionate care and end of life visits at this time. We may be able to lift these restrictions prior to the typical two weeks. We will notify you if we are able to. We will continue surveillance testing of residents and staff on this neighborhood.

We are excited to share with you that the Centers for Medicare and Medicaid Services (CMS), in collaboration with the Centers for Disease Control and Prevention (CDC), has released new guidance for nursing home visitation. In concert with the Connecticut Department of Public Health, we are reviewing these guidelines. Upon further direction, we will develop appropriate policies and procedures. Once we have our updated systems in place, we will be sure to notify you.

Thank you for your support as we work diligently to care and protect our community. If you have any questions, please do not hesitate to reach out to us directly. Please find our cumulative data on the following page.

David Bordonaro  
President

Lisa Clark  
Vice President, Administrator of the Health Center

Cumulative data below is from March 2020 to March 11, 2021
