

April 21, 2020

Dear Residents, Patients and Families,

As we send this update to you, our tireless care teams are aggressively fighting to end COVID-19 on our campus.

We currently have 15 positive cases isolated on our post-acute neighborhood and no pending cases. We have one long-term care resident and five assisted living residents that are being treated off campus, and one case pending.

As we manage this virus in our Health Center, we continue to follow the guidelines put forth by local and federal health care agencies on best practices for infection control and continue to educate and train all our staff on recommended care protocols.

Thank you to those who send gifts and flowers to residents and to families and local businesses for providing delicious meals for our staff, who is working around the clock to care for our community.

While our campus may look different, the strength of our mighty caregivers is constant. Please join us in thanking our staff for their unwavering support and commitment.

Be well.

David Bordonaro
President

Lisa Clark
Vice President, Administrator of the Health Center
