

July 28, 2020

Dear McLean Patients, Residents and Families,

Today we are sending out our regular weekly communication as we continue to keep you informed on the health and safety of our campus.

We are continuing surveillance testing of nursing home staff and residents, as well as Home Care & Hospice staff, every week until further notice and will report any positive COVID-19 results to you. As of today, we have seen negative results from all resident and staff testing.

Our staff continues to remain vigilant in appropriate screening, Personal Protective Equipment (PPE) usage and hand hygiene. Our mitigating strategies remain in effect. You will find these listed below:

- Visitors are restricted in the building except at end-of-life care.
- Scheduled outside family visits are allowed with four guests that are screened at our door and visit by the circle. Masks, hand hygiene and social distancing are required. Window visits, Skype or FaceTime visits continue to be offered by appointment. No food/drinks are allowed during visits.
- Dining is limited to residences or areas that allow for appropriate social distances.
- A health screening process is in place at our entrance for all essential personnel entering the building.
- Personal Protective Equipment (PPE) is available and worn by all staff while on campus.
- Enhanced cleaning process with approved products used and increased focus on touched surfaces.
- Masks are provided to all residents to wear when out of their room or if engaged with their care team (with the exception of face care, taking medications or eating).
- Regular audits are conducted by the CT Department of Public Health, National Guard and CDC to survey our infection control practices.
- Medical appointments via telemedicine are encouraged whenever possible.
- COVID-19 weekly testing of staff follows the Governor's executive orders. Currently working with state assigned partners. We will isolate any positive cases and implement additional testing and cohorting strategies.

Our cumulative data as of 7/28/20 is as follows:

Positive cases are noted based on resident's home neighborhood.

Assisted Living – 9 positive residents to-date, with last positive identified 5/6/20

- Robinson has had 1 positive (1 recovered)
- Atwater has had 1 positive (1 recovered)
- Abernethy has had 7 positives (5 recovered), 2 resident deaths (1 death at another facility)

Skilled Nursing Home – 24 positive residents to-date, with our last positive case identified 4/24/20

- Evergreen Way (post-acute) has had 6 positives (5 recovered), 1 death at another facility
- Chapel Crossing has had 1 positive (1 recovered)
- Skyview Terrace has had 17 positives (14 recovered), 3 resident deaths

Campus Employees – 25 positives (24 recovered) with last positive case reported 7/20/20

We have heard from a few families who are concerned about noise and sun exposure at our current location for family visits in our front circle. We are continuing to evaluate the best spots for these visits, keeping in mind construction traffic and landscape work. Additional shade structures have been added in the front circle location.

Please be advised as you schedule your in-person, outside visit with

Kathy.Cookson@McLeancare.org that we do have landscapers on our campus on a regular basis, typically on Tuesdays. We will do our very best to minimize disruption during typical family visit hours; however, this may not always be possible. Also, please note that we do not have bathrooms available for visitors. Kathy Cookson has a list of friendly community facilities she would be happy to share with you when you schedule your visit.

Please consider contributing an item or two to our time capsule so that we can capture this unprecedented time for future generations of the McLean community. Your participation is key to ensuring our story is remembered! Please leave your item(s) in the box on the table outside the front door. We have extended the date and welcome your submissions by August 15th. Feel free to contact Jean.Miles@McLeanCare.org with any questions. The time capsule will be opened in 2046, to help celebrate McLean's 75th anniversary.

We hope to see you at the next Family Council joint meeting on August 19th at 2:00 pm. Look for the invitation in your inbox early next month. Please be sure to email your questions to Joan.Stefanowicz@McLeanCare.org.

Be well.

David Bordonaro
