

December 21, 2020

Dear McLean Patients, Residents and Families,

We are sending an update today to let you know that a staff member on The Robinson received a positive COVID-19 test result as part of our ongoing surveillance testing. This team member is quarantining at home. Contact tracing has been completed and anyone who was potentially exposed has already been notified.

Please remember that we need two full weeks of negative test results in order to lift our current mitigating strategies and enhanced safety protocols. As of now, we are planning to lift these measures on January 2, 2021 pending all results are in and all results are negative.

We are also writing to remind you that in order to get your loved one on the list to receive the Pfizer COVID-19 vaccine at McLean, you must express your interest by emailing your family member's name to Vickie Dirienzo at vickie.dirienzo@mcleancare.org. The deadline was last Friday, so please email Vickie today.

YOUR email is NOT CONSENT but your expression of interest. A separate communication will come from Vickie and will include a consent form to be completed and signed. This form must be scanned/emailed back, along with a front and back copy of a current insurance card (insurance policy must be in effect 1/1/2021).

Thank you for your continued support. We will be sending our regularly scheduled communication tomorrow.

Be well.
