Dear McLean Patients, Residents and Families,

We are sending an update today to let you know of one additional post-acute patient and two skilled nursing residents who tested positive for COVID-19 as a result of our surveillance testing. The patient on Evergreen Way is isolating in a positive section of that neighborhood and the residents on Skyview Terrace are isolating on their neighborhood in a private section.

Contact tracing is currently underway and anyone who has been potentially exposed will be contacted individually by our care team. Additional precautionary measures were already in place and we are maximizing efforts to monitor appropriate use of PPE and sanitizing measures.

We will be continuing surveillance testing of all assisted living and skilled nursing residents and staff, as well as implementing increased frequency of COVID-19 surveillance testing on Evergreen Way and Skyview Terrace.

Cumulative data from March 2020 to January 4, 2021

Positive cases are noted based on resident's home neighborhood.
