

Process and Safety Measures for Your Home Care or Hospice Visit:

Before your visit:

- You will be contacted by phone and asked health screening questions regarding your health and the health of any others in the home.

During your visit:

- Upon arriving at your home, our staff will conduct a brief health screening, which includes taking your temperature and oxygen saturation reading.
- Our staff will be wearing appropriate PPE, (may include gowns and face shields in addition to masks) for the duration of the appointment.
- All patients will be asked to wear masks for the duration of the appointment.

Cleaning and sanitizing:

- All equipment brought into the home is sanitized before and after each patient.
