

January 25, 2022

Dear McLean Patients, Residents, and Families,

As a reminder, the next Family Council meeting will occur tomorrow, January 26 from **10:30 a.m. to 11 a.m. (please note it is a different time of day)**. Here is the link and information to join. We are looking forward to you joining us!

[Join Microsoft Teams Meeting](#)

+1 860-241-5262 United States, Hartford (Toll)
Conference ID: 293 990 335#

We will give you an update on what's happening here at McLean and provide an update and answer any questions you have regarding the new visitation guidelines.

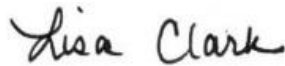

Beginning today, we have officially begun to implement the Governor's executive order to screen all visitors and essential personnel for their vaccination status. All visitors or essential support persons, when visiting a nursing home resident,

- will need to provide proof they are fully vaccinated and if eligible have received the booster
- or will provide paper or electronic proof of a negative rapid antigen test result within the previous 48 hours or a negative PCR test that was completed within the previous 72 hours – we are unable to verify a picture on your phone from a home test unless you have a physician note documenting a telemedicine visit to verify the test
- or will take a rapid test when they arrive here at McLean – please visit the family site on our website to watch a video on what to expect during the test and we also have a link to schedule a specific time to test through [SimplyBook.Me](#) if you prefer to have some assistance – you are not required to pre-book a time

Below please find our cumulative data. We do not have any new positive residents or employees. From our resident testing last week, we are waiting for one more test result, but all other residents have tested negative, other than the one person from this past Saturday. We currently only have one employee isolating at home from last week.

David Bordonaro
President

Lisa Clark
Vice President, Administrator of the Health Center

Cumulative data below is from March 2020 to January 25, 2022
Positive cases are noted based on a resident's home neighborhood

	Positive	Last positive case reported on:	Recovered	Deaths
Total for Assisted Living	20	1/21/22	17	2
Total for Skilled Nursing	39	12/30/21	32	7
Total for Employees	111	1/19/22	110
