

May 11, 2023

Dear McLean Health Center Families, Employees, and Residents,

It has luckily been a long time since we provided a COVID update. We are happy to say we haven't had a positive resident or employee since April 10.

With the end of the Public Health Emergency today at midnight, we are so excited to finally be able to say that the McLean community will be "mask optional" beginning on May 12! This is amazing news for our residents and employees who have been wearing masks every day for over three years!! We are incredibly thankful to our employees, residents, family members, and volunteers for all of their support over these years. We made it through.....McLean Strong!

We will be unplugging the Well Screen machine at the front entrance. We will use a visitor sign-in book so we know who is in the building in the event of an emergency. We had this in place prior to COVID-19.

With this exciting news, we also want to mention that you are welcome to have meals in the dining rooms with your loved one. You no longer need to reserve a private space to enjoy a meal. Please make all meal reservations with the receptionists.

We all need to help protect our fragile residents. Please do not visit if you are not feeling well. We are in allergy season and you may think your sniffles or cough are allergies, but they might not be.

If you, or anyone that visits McLean, discover you are COVID-19 positive within 10 days of visiting us, please call the nursing supervisor right away so we can take the appropriate actions immediately to assess the potential exposure to stop potential spread.

Sincerely,

A handwritten signature in cursive script that reads "Lisa Clark".
