

September 18, 2023

Dear McLean Health Center Families, Employees, and Residents,

Per a continued CMS requirement, we are writing to keep you informed on our current COVID-19 status. We have one more employee from the Skyview Terrace neighborhood who has tested positive. Contact tracing has been completed and anyone with a potential exposure has been notified. Testing for the residents with potential exposure will continue per current protocol.

You are welcome to join your loved one for a meal as long as you are in the resident's private room; private assisted living apartment; or private, designated meeting area. We are no longer using SimplyBook.me. If you are interested in scheduling a private room, please email... [bookings@mcleancare.org](mailto:bookings@mcleancare.org) and a form will be emailed back for you to complete your request. If you have any questions, please reach out to Jennifer Alexander in the Life Enrichment Department at 860-658-3734.

We all need to help protect our fragile residents.

- Please do not visit if you are not feeling well.
- Please perform a COVID-19 test if you have a runny nose or any cold symptoms prior to visiting.
- We strongly encourage visitors to wear a surgical mask while in the building.
- Prior to entering the room of a COVID-19 positive or symptomatic resident, please check with a nurse regarding additional personal protective equipment needed.
- If you, or anyone that visits McLean, discover you are COVID-19 positive within ten days of visiting us, please call the nursing supervisor right away so we can take the appropriate actions immediately to assess the potential exposure to stop potential spread.
