

June 26, 2024

Dear McLean Health Center Families, Employees, and Residents,

Per a continued CMS requirement, we are writing to keep you informed on our current COVID-19 status. We have one employee who has tested positive. There was no exposure to any neighborhood and there is no connection to the two other previous cases.

We all need to help protect our fragile residents.

- Please do not visit if you are not feeling well.
- Prior to visiting, please perform a COVID-19 test if you have a runny nose or any cold symptoms.
- We strongly encourage visitors to wear a surgical mask while in the building.
- Prior to entering the room of a COVID-19 positive or symptomatic resident, please check with a nurse regarding additional personal protective equipment needed.
- If you, or anyone that visits McLean, discover you are COVID-19 positive within ten days of visiting us, please call the nursing supervisor right away so we can take the appropriate actions immediately to assess the potential exposure to stop potential spread.

Lisa Clark
President
