Did You Know...

Presented by the McLean Environmental Action Committee

- Paper towels, tissues and tissue paper are not recyclable?
- Simsbury has begun a trial residential composting program?
- Because of the thermal paper they're printed on, register receipts are not recyclable?
- Dead batteries can be left in first floor trash rooms in the marked receptacle?
- Dead light bulbs (not containing mercury) can be left in first floor trash rooms in the marked receptacle?
- Dark plastics are not recyclable because they're undetectable during automated recycling processes? You may put dark plastic in your recycling bin, but it ends up in a landfill.
- A laundry tablet is available to toss into your washing machine. These tablets let you avoid big plastic containers of detergent (which is mostly water anyway).

October 2024

FROM THE DESK OF THE DIRECTOR

Fall has officially arrived!

This is the time of year where we are the envy of others throughout the country due to our beautiful scenery and fall foliage. The Bordonaro Terrace is an ideal location to watch the changing leaves of the golf course and Simsbury Mountain.

We are waiting for confirmation of the date and time for a Flu/COVID shot clinic. These are two separate injections that will be available at the clinic. As soon as we have confirmation, we will inform everyone and send out paperwork that needs to be completed prior to the clinic.

Start thinking about what you would like to be for Halloween. Our annual costume happy hour, complete with prizes, is October 31 at 4:00 p.m. in the Grouse and Quail.
