Did You Know?...

*Presented by the McLean
Environmental Group*

- It takes nearly 450 years for a plastic bottle to decompose in landfill.
- It takes glass about 4000 years to decompose in landfill.
- You should never recycle anything smaller than a credit card.

BOUNDLESS

April 2025

FROM THE DESK OF THE DIRECTOR

Welcome Spring!

As mother earth wakes up from her nap, we take the opportunity to celebrate Earth Day. Earth Day, celebrated annually on April 22nd, is a global event that encourages people to take action to protect the environment and raise awareness about environmental issues like pollution and climate change.

We are fortunate to have our very own Environmental Group here in the Village, which raises awareness and creates initiatives to help us all be better stewards of our environment. From redemption collection bins to looking at ways to streamline our use of plastics and paper, the group has done a great job. We look forward to the group's information pop-ups at Wednesday happy hours to show the many different ways we can all work towards helping the environment.

Don't forget to take advantage of the paper shredding event here at McLean on Saturday, April 5, from 9:00 a.m. till noon. It's a great way to responsibly and safely dispose of any unneeded confidential documents.

Megan Gill
