Big (1988) Thirteen-year-old Josh Baskin tries to impress a girl by going on a carnival ride but is refused as he is too short. Dejected, he inserts a coin into an antique fortune-teller machine called Zoltar, and makes a wish to be "big". The next day, Josh discovers that the Zoltar machine can actually make wishes come true, as he has grown physically into an adult (Tom Hanks). With the help of his best friend, Billy, he learns how to act like an adult. But as he gets a girlfriend and a fun job, he doesn't want to be a kid again. Will Josh stay big or become a 13-year-old boy again?
