**Father of the Bride** (1991) Starring Steve Martin as George Banks, Diane Keaton as his wife Nina, and Kimberly Williams as their daughter Annie, the film is a remake of the 1950 classic of the same name. It follows George, a businessman who becomes increasingly flustered as he prepares for his daughter’s wedding to Bryan MacKenzie, whom he has only just met. The film humorously captures the challenges and emotional turmoil of letting go as a parent while also highlighting the joy of family and love. Steve Martin's heartwarming portrayal of a father's love is particularly praised for its blend of humor and sincerity, making it a favorite among audiences.
